Date _____ Adult Patient's Signature _____
(If other than policyholder)

Claim Instructions: *Intensive Care*

You are advised to make copies of all forms (very important).

Complete all areas of claim form and submit with itemized statement of expenses. Some medical facilities will refer to this form as a UB92 and a doctor's office will refer to it as HCFA form. It is important that these forms include diagnostic codes (ICD9) and procedure codes (CPT codes).

If you are faxing a claim form and statements, please make sure that the documents will deliver a legible fax. Red ink, other lighter colored inks, and penciled text produce a poor unusable fax. Since company can only use legible documents to process your claim, mailing claims has proven to be best way to transmit your claims.

Tip: Please do not try to decide what should or should not be submitted. This would only increase chances of not sending in something that should have been. I recommended submitting all statements related to the claim.

You are advised to get all documents sent directly to you and then to submit them to Life of Alabama. We cannot be responsible for documents that for one reason or another did not get to us. Occasionally when you receive third party information that the document was sent, it sometimes did not get to us. To avoid mis-communication and delays, please have documents sent directly to you, and then you forward these to our office.

Some prefer to hold statements and submit all at one time, and some prefer to submit as they receive them. This is your decision. I personally prefer sending in the statements as you receive them. However please remember claims that are over one year old cannot be processed.

Occasionally the insurance company will ask for additional information. This could include a personal questionnaire about this particular condition, the attending physician statement, names of doctors who may have attended you in the past for this condition, patient accounting information, etc. The information requested is important and it should be returned as soon as possible.
